**100+ IAF Awards**

# About DAF

---

With design promotions, presentations and knowledge sharing with expert speakers, the team at DAF aims to overwhelm the professionals by the architectural inspiration that DAF has to offer. The architectural festival will highlight research and projects that explore the reciprocity and synergy between design and implementation, the digital and the physical, and between digital software and material logic. This one of its kind architectural festival will bring together designers, researchers and practitioners who engage, question and aspire to stretch these boundaries to share, display and exhibit their ideas to the rest of the world.

The speaker interactions and the publication of its proceedings will provide a major channel of communication among experts in the field of architecture.

We believe in bringing  
the Architecture &  
Design Community  
together 365 days a  
year. **DAF 2016**

# Visitor's Profile

- Urban Designers
- Engineers
- Interior Designers
- Planners
- Landscape Architects
- Product Designers
- Installation Designers
- Exhibition Designers
- Sustainable Analysts
- Architecture Students
- Design Students
- General Visitors
- Consultants

## DAF Mission

---

The mission of Delhi Architecture Festival is to organize and present a platform of promotion and knowledge sharing on topics of interest to the architectural community. Through this entrepreneurial idea, the team of experts behind DAF aims to:

- Develop, support and represent communities of practice and learning in architectural education in India and globally.
- Foster inclusive dialogues between the architectural and design community, students, and employers, educational and professional bodies.
- Encourage research, creativity, idea sharing and knowledge transfer to develop teaching and learning in architectural education.
- Promote the value, richness, quality, and diversity inherent in the architectural education.

**The opportunity to meet, engage and network for all who are actively involved in future projects.**

Delhi Architecture festival  
will be the first event in  
series of **Delhi, Mumbai  
& Ahmedabad.**

# DAF Sections

---

## 1 Exhibitor's Section

Shortlisted projects of various established and novice architects will be displayed and presented across a range of display sections. These projects will in itself – speak excellence in implementation, design and creativity. The architects will have the opportunity to present their projects to architects and non-architects. The exhibitors section will prove to be a major source of branding and exhibiting opportunities.

## 2 Student's Corner

The education providers from the region and across India will be given an opportunity to promote the ideas, designs and architectural projects that their students have accomplished as a part of their respective academic process. This will provide the education providers a platform to showcase the quality resource they devote to their students, in order to bring out the best out of future architects. For the students, this will work as a niche step towards get talking to potential architectural opportunity providers.

## Key dates:

Application for Exhibition Opens : 15th Aug 2016

Application Deadline: 25th Oct 2016

Architect's Talk: 15th Oct-31st Dec 2016

Exhibition: 13th -15th Jan 2017

Seminar: 13th -15th Jan 2017

Event Conclusion: 15th Jan 2017

**DAF 2016: 13th -15th Jan 2017**

# DAF Sections

---

## 3 Seminars & Talks

The Delhi Architecture Festival seminar programme will provide an opportunity to architects and non-architects to hear from the world's leading architects, commentators, clients and thinkers. The full speaker line up will be announced closer to the festival date

## 4 Live competition

Competitions across various genres of architecture and design will be organized over the three day festival which will be open to general public. These competitions will be an effective platform for architects and prospective architects to showcase their skills and get recognized for their creativity, designs and practical implementation of the same

# Seminar & Talks

## DAF Programme

Seminars & Talks

Architecture's thought leaders contribute to, and participate in, DAF's industry shaping seminar programme. The seminars provide insight and inspiration to equip audiences to solve the toughest challenges facing architects and designers today.

Want to Exhibit,  
Want to Attend ?**

# DAF Awards

# DAF Programme

DAF Awards

The IAF awards are integral to the fabric of the World Architecture Festival. Architects from across the globe enter projects in a wide variety of sectors from hotels to houses, future masterplans to hospitals. Every short listed scheme will be presented at IAF.

## Architecture

**Commercial :** This award recognises the architectural excellence and innovations in commercial buildings which includes retail and shopping centres.

**Cultural :** Projects that serve the need of cultural spaces such as Museum, Gallery, Hall or Theatre, Pavillions and Religious & Memorials with innovations.

**Sports & Recreation :** Stadium or Arena and Recreation Centers with innovation in design that gives the new directions and provide the new generation a food for thought.

**Residential – Private House :** This award recognises the best residential projects that provide a comfortable and attractive living environment for a private house.

**Housing (Upto 5 Floors) :** This award recognises the architectural innovations in low rise housing upto 5 floors to provide residents comfortable environment in their respective climates.

**Housing (More than 5 Floors) :** High rise housing design that defines the new standards for living, which could be either new technologies based or simply the use of wisdom.

Office Building

30+ Categories  
100+ Awards

# DAF Programme

DAF Awards

**Office Building** : This award has been instituted to recognise architectural excellence for office designs that seek the new architectural language to fulfil the functional requirements.

**Institutional Building** : This award recognises the architectural excellence and innovations in the Institutional Buildings such as Schools, and Hospitals.

**Transportation** : Transport terminals such as Railways, Airports, Bus Stations, Boat Piers, Port facilities etc. that take transport architecture to a new level and define some new directions.

**Hospitality** : Architectural Excellence and Innovations projects like Hotels & Resorts, Restaurants, Bars & Nightclubs and Wellness Centres.

**Mixed Use** : Featuring a combination of one or more categories, such as hospitality and commercial or residential and commercial or a mixture of all the three categories.

**Pop-Ups & temporary** : This award recognises the year's best architectural temporary structure or pop-ups that come in events like exhibition and installations etc.

## INTERIOR

**Residential Interior** : interior design project featuring innovations in providing the comfortable living environment for inhabitants that characterizes the new models for living.

Chances flourish,  
however you can't  
win in the event  
that you don't  
enter.

# DAF Programme

DAF Awards

**Public Building Interior :** This award recognises the year's best interior design project featuring the new models for interior environments, which could be either new innovations or technologies.

**Commercial Interior :** This award recognises the perfection and excellence in commercial interior spaces like retail, hotels, foodcourts etc with innovations as of already known to us.

**Corporate Interior :** This award has been instituted to recognise the best projects in corporate interior spaces. Designs that look for the new building dialect to fulfil the utilitarian necessities.

## **Landscape Design**

## **Urban Design**

A proposal responding to emerging challenges in areas such as ecology, information technology, socialization and globalization.

## **Product Design**

From fashion and accessories, to consumer electronics and vehicles, household helpers and furniture, there are many categories for the participation in the DAF Award: Product Design.

Re-thinking The Future  
(RTF) is a hub of services  
for architecture and  
design that was  
established in  
**New Delhi, India in 2012.**

## About RTF

---

"Re-thinking The Future is about envisioning a future that aims to meet human 'needs' while preserving the environment so that these 'needs' can be met not only in the present, but also for future generations."

**Re-thinking The Future (RTF)** was born from the idea of two young Indian architects, **Vikas Pawar & Karan Grover** who wanted to create a new window on international trends in architecture and design that looks on to the solutions for the need of the era i.e., Climate Change.

The multicultural profile that RTF has acquired over time allows for the investigation of the proposed topics via different philosophies and schools of thought. In order to reach a new expression of a design project we believe in the search for new solutions, even visionary ideas, to amplify the possibilities offered by advanced technology and science. RTF is working to develop an architectural language that would 'sustain' and 'survive' the impacts of climate change taking sustainability one step ahead.

**RTF** through more than 80 countries around the world provides an interactive platform of highest standard acknowledging the projects among creative and influential industry professionals.
