Now on its 36th Cycle, the World Architecture Community Awards 10+5+X is a well-established and recognised competition giving both its participants and winners, be it Architects, Interior Designers or Students/Academics, a great opportunity to have their projects highlighted and recognised both among their peers and in the marketplace.

Given the International nature of World Architecture Community, participants from around the Globe and in particular from regions less covered by general or specialised media, get a chance to share and promote their projects, which would otherwise go unnoticed, while potentially initiating new and exciting questions or issues about Contemporary Architecture/Interior Design.

There are 3 categories in which the participants can compete: Designed, Realised and Student. While confirmed architects/interior designers may compete in both the Designed and Realised categories, they can not participate in the Student category which is reserved to Students, as per its name.

Awarding follows a very democratic procedure where all WA Jury members’ votes (for the 10) or World Architecture Community members’ ratings (for the 5) have equal weight and are effective in the final decision.

The WA Jury is composed of members of our 200+ Honorary Members and winners of previous WA Awards cycles (based on availability during that cycle).

The WA Awards runs 3-4 cycles per year and the winners are announced within month after the closure of the cycle.

More information on how to participate is available at the World Architecture Community portal.

A Few Words from Our Editor-in-Chief

“We are delighted and very excited to announce the Country Editors/Reporters Program World Architecture Community launched as of 2017. We are inviting fellow community members from all around the World, to volunteer as the face of their country on World Architecture Community while being the voice of World Architecture Community in their country.

The idea is very simple: we call for volunteer community members to join the World Architecture Community’s news team. By enrolling these community members scattered around the globe and interested in sharing their countries’ architecture news, we are now expanding our ability to share exclusive and local news, which we trust will be a great addition and benefit to our Community.

Since we announced the program in mid-December 2016, there’s been great interest and we are receiving applications every week from every corner of the globe (see map). We will continue to call for more to join our team.”
